# The Five Love Languages: Singles Edition

## **Synopsis**

The five love languages work for everyone (they're not just for married couples)... In this world we're surrounded by more people than ever; yet we often still feel alone. Being single or married has nothing to do with whether you need to feel loved! Everyone has a God-given yearning for complete and unconditional love in the context of all relationships. If you want to give and receive love most effectively, you've got to learn to speak the right love language. Different people with different personalities express love in different ways. In fact, there are five very specific languages of love: Words of affirmation, gifts, acts of service, quality time, and physical touch. Dr. Gary Chapman's original bestseller was first crafted with married couples in mind, but the love languages have proven themselves to be universal. The message of this audiobook is now tailored to meet the unique and real desires of single adults. Insert disc 5 into your PC to access the PDF material.

## **Customer Reviews**

"Christian author Gary Chapman applies his groundbreaking thinking on love to single people. In an immensely satisfying lesson, he explains that the love languages are not just skills but expressions of a deep human need to give ourselves fully to another person "even after the initial bliss ends. Offering many sophisticated insights and suggestions along the way, he explains the five languages, shows how they play out for single people at various life stages, and extends the lesson to friendships, work relationships, and personal success. Chris Fabry's reading is natural and appealing. His gentle authority and desire to help are obvious from the opening sentence and will

motivate many singles to begin working on life's most important challenge."Â T.W. Â© AudioFile

This simple concept can revolutionize all your relationships!Â "Nothing has more potential for enhancing one's sense of well-being than effectively loving and being loved. This book is designed to help you do both of these things effectively." -Gary ChapmanÂ With more than 8 million copies sold, The 5 Love LanguagesÂ® continues to strengthen relationships worldwide. Although originally crafted with married couples in mind, the love languages have proven themselves to be universal. Whether it's dating relationships, parents, coworkers, or friends-understanding your unique love language and that of others can significantly improve your relationships.Â The premise is simple: Different people with different personalities express love in different ways. Therefore, if you want to give and receive love most effectively, you've got to learn to speak the right language.Â The 5 Love LanguagesÂ® Singles Edition will help you . . .Â \* discover the missing ingredient in past relationships\* learn how to communicate love in a way that can transform any relationship\* grow closer to the people you care about the most\* understand why you may not feel loved by those who genuinely care about you\* gain the courage to deeply express your emotions and affection to othersÂ Includes a study guide that's perfect for groups of any size.Â --This text refers to an out of print or unavailable edition of this title.

It is definitely a good book for couples and it has improved my relationship with my wife. If nothing else it shows you what things your partner is really looking for out of their spouse. I quickly found that my love language was "Acts of Service". Though it might not be sexy or macho to say that, it means more to me to have the dishes and laundry done when I come home after work or have minor home improvements taken care of before I get home. My wife and I have 2 small children and our house is hard to stay clean because every room feels like a mess. We do clean it all the time but it feels like a losing battle. My wife's love language is "Words of Affirmation". As you can tell from all these reviews I am much more of a writer than I am a talker. My wife is always looking for me to say how much I love and appreciate her because I don't say it often enough. A big part of improving your relationship with your spouse or boyfriend/girlfriend is to sticking with a date night to make sure you have quality time together. Especially if you have children or a high stress occupation. My wife and I have been together for 10 years and got stuck in the rut of an endless routine of doing everything we could for our kids, followed by daily chores and left little time for ourselves. Committing to 1 date night a week has really helped our relationship and improved our

communication. I recommend the book for sure and found it inspiring and worth reading. All couples can benefit from reading this book. The only downside is I wish it could have been a little longer. The stories from the author are interesting and I would have liked to have heard a bunch of his other examples of couples that he has dealt with. It was a short book and my wife and I finished it in 4 or 5 days and that was reading it slowly. The price is easily affordable. I found it best to photo copy the test quiz at the end instead of writing in the book so we can give the book to any family or friends who are struggling with their relationship.

Was incredible. Are you looking to understand yourself & your significant other? This book will spark positive constructive conversations every time you pick it up. My wife and I took turns reading it out loud. If you're not great or comfortable reading out loud, then why not show your vulnerable side. Guys, you don't need to play the tough manly man game 24/7. If you do this, I'd bet money that she'd be swept off her feet(if she has any feelings for you). I honestly can't say enough about the book, my decision, and the results it produced.

Purchased two books, one for my daughter and one for her boyfriend. They are looking forward in reading this together and have just finished reading and going through, Whatever Is...: A Couple's Devotional for Christian Dating in a Secular World.

Friend recently divorced & it helped her understand a lot of what or why things happen. She's on the mend earlier she feels because of its influence. These books (Five love languages) on children & teens are wonderful too.

Have heard so many people comment as to what a great book this is. I read parts of it while on the plane to a bridal shower, for my future granddaughter in-law. It was a gift for she and our eldest grandson. I like what I read, and it was easy to understand and could be used in all kinds of relationships, not married couples.

One of the best (if not THE best) books on relationships I've ever read. You can apply the 5 love languages to every relationship. Especially wonderful for married couples and for parents to figure out their children's love language. Just remember to speak it!!Ã¢Â•Ã¤

Incredible for learning how to recognize your own love language and that from people around you

that you care about. Must read!

I am not a fan of books like this. It seems that there is always some part that just doesn't fit your circumstance or personality. Yeah, that might work for someone but it would be a square peg in a round hole for us. Dr. Chapman however spent years studying people, he's an anthropologist, and counseling them and has come up with five main aspects, he calls them languages, of how people interact with one another in our most intimate relationships, that crazy little thing called love. It's not clinical. It's not technical. It's not a system. In very clear simple language, he defines each love language: Words of Affirmation, Quality Time, Recieving Gifts, Acts of Service, and Physical Touch. Then gives abundant examples from his study and practice. Both successes and failures. He doesn't say do this and all your relationship problems will be solved, he shows what a good relationship looks like, how others have worked on theirs, and tells you: See, it can be done. I think it's the best book on how people interrelate with each other, it helps in all the relationships of life and really does help start healing marriages. It did mine.
