Piano-K, Play The Self-Teaching Piano Game For Kids. Level 3

Synopsis

Piano-K is an exciting new self-teaching game-book for children which does not require any previous music skills and the only one that integrates colors and figures into the score, and their matching stickers on the keyboard. The colorful animals' stickers allow kids to associate the notes on the keyboard with their places and names in the score without realizing that they are learning to read music. There are three levels of proficiency. In the third level, three sets of seven notes give the music a richer dimension with several sounds played at the same time. Over-sized 11 x 17 inches. For EXTRA STICKERS email: learn at piano-k.com. Spanish edition is also available.

Customer Reviews

Our 5 & 7 year olds LOVE these! We weren't quite ready to enroll 2 kids in piano lessons, until we had a better idea of their interest level. And just 30 days in, they're both playing multiple tunes with proper fingering. Our 7 year old is now playing pieces requiring both hands. These really are excellent! And if your stickers come off, you can reorder for a pre-paid envelope and \$1/set. We ordered 5 just to have, for when our originals wear.

great easy to use book

My daughter always wanted to play the piano. So we finally got one! I love the easy peel stickers for the piano keys. It makes learning easier & fun! In all honesty, my husband loves the book & has been practicing too! The pages are super easy to turn. Love it!

This piano learning series is awesome. My 4 year old LOVES it. I highly recommend this for anyone with a piano and a curious kid. Plus, I am finally learning to play piano through this book too!

She's playing with both hands and proud of it...and I didn't have to teach her a thing. I started her with book 1 which she was bored of in a week, so I bought the next two books, and she proudly skipped straight to this one.

I wish I came up with this idea! Kids love the stickers.

Purchased for my grandson. He is very excited as it allows him to move as quickly on the piano as he wants.

These are great books but they are above my five-year-old's attention span. My husband, who has never played piano at all, really likes them.
