Customer Reviews

"It's a tremendous thrill to find a ball that you know has traveled thousands of miles at the whim of wind and current. To learn first hand the techniques of beachcombing, I suggest you head for the beach on any day you choose and just start wandering. You may not find a glass fish net float, but it will be an experience you can't afford to miss. Beachcombing is not what you find, it is what you hope you will find."

If your casually interested in the subject or very knowledgeable you will find much enjoyment and information in this intriguing book. Worth the time and a great book to leave lying around for your guest to pick up and enjoy.

A good book for information and reference. I've not found any on the beaches I go to, but I can always hope or plan a trip to the coast.

Exactly what I wanted for a good price and delivered on time.

Great book on the subject. Great transaction. THANKS SO MUCH! AA++

The price of Fifty-nine dollars seemed high, but this was a book we wanted for a gift. There was a Fifteen dollar sticker on the back of the book!
