These are for a beginning-to-intermediate ukulele player and has an excellent song choice. I have a 3-octave Casio keyboard I use to play the tune before I try to play it on the ukulele. I recognized every song immediately.

I can't wait to get good enough to start playing in church!

Great book! Just perfect for our newly organized Uke group at the church!

Easy to ready chords for many popular hymns. I like the fact that it gives you the tab for each chord throughout the song which is very helpful for someone like me just learning to play.

One dimensional presentation. I would have preferred a more developed tablature including chord structure and string walks, especially given the wealth of hymnal literature available from which to draw and transfer.

Wonderful hymns and easy to follow chords for a beginner ukelele player!

I love this book - I can play and sing and use the correct cords as I play. The old hymns make you feel better and the uke always makes me feel happy.

I like that the uke tab is written above the words. I'm new to playing the uke and found this book a great fit for me.
