Customer Reviews

Required for high school chem class. Didn't love the book- seems like they explained things out of order/ non linearly, but I didn't have any say in which textbook we were using, so....

The book was Spanking Brand new, it had never been opened very satisfied THANKSalso arrived really fast THANKS

Book was as advertised. Received when promised.

Book arrived before the expected date!Great condition... Better than expected!!'ll be buying again if I have the chance!

Exactly as promised! Thank you!

I don't "hate" this book as indicated by the star status. However, the book is missing 65 pages that prevented my son from completing his assignment- obviously. This certainly should have been indicated.

This book was a required text for my sophomore. It arrived in very good condition and seems to be serving him well!

great shipper as described
