# Lexington To Concord: The Road To Independence In Postcards

## Synopsis

The Battle Road in Massachusetts is perhaps the most historic few miles in early American history. At Lexington, soon after Paul Revere and his cohorts roused the village from sleep, a trigger was pulled on the Lexington Common and that shot "was heard round the world." The American War for Independence had begun. Eight dead Americans were left on the green as the British marched on to Concord and the battle at the bridge. These events and many others are retraced in this wonderful new book. Using antique postcards, the authors tell the Revolutionary War story and the rest of the history of the Lexington-Concord region. This was a center of intellectual and social activity in the 19th century and home to distinguished thinkers and writers, including Thoreau, Emerson, Alcott, and Hawthorne. Over the years millions of people have visited the region commemorating their visit with postcard images of the places and events they saw. Preserved in scrapbooks and memory boxes, they now offer a visual history of special place.

E. Ashley Rooney is a graduate Columbia University. She is a professional writer and editor whose articles have appeared in Redbook, American Home, The Boston Globe, Share, Church Educator, and newspapers in Connecticut, Massachusetts, and Rhode Island. She writes about houses, gardens, food, youth, women, and health.

Lovely book about a lovely area.

"Lexington to Concord" is a marvelous book that provides a visual as well as narrative history of the events of April 19, 1775, when Paul Revere rode to Lexington and "the shot heard 'round the world" was fired. What makes this book unique is that every page is illustrated with Amos Doolittle's sketches, period postcards, and current photographs of historical sites. Continuing in time past the Revolution, the towns of Lexington, Bedford and Concord are illustrated, and many anecdotes and little known facts are included. Many books provide excellent and readable narratives of the events of 1775, eg., David Hackett Fischer's "Paul Revere's Ride", but as a person who reads a great deal of American history, I highly recommend "Lexington to Concord" for its visual presentations in combination with descriptive narration and comment.

Interested in tracing the roots of American liberty in words and pictures? Then you will want to read this book. Author E. Ashley Rooney and Mary L. Martin relive the events of April 19, 1775 that "glorious morning for America" when the United States was born. The unique marriage of vintage postcards depicting the events and the colorful text make for a delightful walk through American history.
