10 New Actual, Official LSAT PrepTests With Comparative Reading: (PrepTests 52-61) (Lsat Series)

Synopsis

Comparative Reading questions first appeared in the LSAT in 2007. Our new 10 Actual, Official LSAT PrepTests book is the first one ever to include previously administered Comparative Reading questions. This essential LSAT preparation tool encompasses PrepTest 52 (the September 2007 LSAT) through PrepTest 61 (the October 2010 LSAT). For pure practice at an unbelievable price, you can't beat the 10 Actual series. Each book includes: 10 previously administered LSATs, an answer key for each test, a writing sample for each test, and score-conversion tables.

Customer Reviews

10 New Actual, Official LSAT PrepTests with Comparative Reading: (PrepTests 52-61) (Lsat Series) Having now taken the test, I can say that the practice tests are what makes this material so useful. Undergoing 10 practice tests takes a lot of time, but it's the best preparation you can give yourself. I recommend just getting through a couple, and then beginning to time yourself to get a rhythm going. Pacing yourself during the LSAT is key, which is why the practice tests are so helpful.

Fantastic set of tests for studying for the LSAT. The book includes the tests, scoring chart, answer key, and the answer bubbles (located in the back of the book). The only thing that would be better is if it contained explanations to the test answers, but I'm sure that version would cost much more. Overall this is a great purchase for the price and a must have for anyone looking to take the LSAT especially since these tests are some of the more recent versions.

While several services are needed in preparing for law school, these tests are one of the keys to success. Many have said that the biggest enemy in the LSAT is time management. In that sense, I think most students get the most help from practice LSATs where they may time themselves and then go back to see why an answer is actually incorrect--this helps to understand how to choose a "best" answer from many possible solutions. This manual provides 10 LSAT prep-tests sectioned so that they may be taken individually and then scored. They also include writing section prompts so that LSAT takers can get a little practice on the sorts of things they may be asked to write about. These prep tests, for me, were the most helpful resource in preparing for the LSAT.

Even though none of the 10 LSAT pretest books have solution guides, you can easily find that information on the internet from other resources. Just be aware that you might not understand why an answer is correct and you'll have to do a little searching to understand why.

If you plan on taking the LSAT, this prep series by the official law school admission council will help prepare you. These 10 exams were official tests given in the past. The only issue is that the reading comprehension section has recently been re-formatted so that it contains one passage wherein you compare two different author views on a topic; basically you will have to read two writings by two different authors and compare them. Otherwise these exams are very similar to the ones you'll be taking. I highly recommend because the exams are comparable to the same difficulty and level of logic games, logical reasoning, and reading comprehension that will be on actual LSATs.

I'm pleased that LSAC decided to release a new "10" book with the updated RC sections. As a self-studier readying myself for the LSAT, saving \$50 to \$60 by purchasing this book as opposed to the individual pretests represents a significant boon. Now, I can put additional money towards other preparation essentials. Hopefully LSAC publishes a fifth "10" book at some point with some tougher-to-find tests to provide broke prospective law students with one less financial burden.

The practice tests were by far the most helpful part of my LSAT prep. There was no substitute for practicing on real tests, where you can time yourself, practice the endurance of a complete test, etc. If you are serious about getting a good score on the LSAT, you are going to need to take at least 20 of these bad boys. Definitely focus on the latest tests for the best idea of what to expect on your test day.

Got me into law school! Took the LSAT one time and did great. So I'd say these books are a must!
