These transcriptions are TRULY accurate. I learned almost every song in this book, and played along with the CD, and this is truly exactly what she played. ARTIST APPROVED for this book truly is that. This is NOT a beginners book. Some of the chords are quite intense, and the left hand is not your typical bass undertones. The left hand is where Sara does more of her "melodic" playing and rhythms. The right hand is for chords. Would suggest for intermediate or advanced piano players. Bought Little Voice and now Kaleidoscope Heart both by Cherry Lane Music, inc. Both were artist approved. And both are EXTREMELY accurate. Would recommend this book, Little Voice, and Cherry Lane Music in general (have bought 1 other book from them). Great company.

The best thing about this book is that it is a great representation of what Sara plays on her albums. As a professional singer/piano performer, it's often frustrating that most pop music piano/vocal/guitar books really fall short in the piano accompaniment category. But Sara approved the book herself and the accompaniments are great! Highly recommend this.

love her music

Love to listen to Sara Bareilles. She has a great sense of humor, plays the piano, and sings. What more could you ask for!

Expensive IMO. But how can you talk bad on her music, so guess its a price im glad to pay.

Great! Every song sounds amazing but isn't to difficult!

Excellent music, excellent transcription. Most of the songs are completely accurate. However, on 2 (I think) of the songs the melody is plunked into what the right hand is playing. Very fun to play!

Excellent arrangements -- very accurate, in the original keys.
