Customer Reviews

Not very pleased with this product, but it's my fault for not noticing the dimensions (it's the size of a

pew hymnal, but the music font is light and small). Also the description points out that the songs are melody-only (vocal) plus basic guitar chords. Not suitable for a pianist. Friends, you do get what you pay for.

The content was good, and my elderly mother enjoyed it greatly. The book would be much easier to read if it were a bit larger and text was spread out more and clearer; however, I would still recommend the book for the content.

great for the price but small print

Great book with great songs and I love the history behind each song. I like the lead music and the guitar chords. Well done! My only gripe is that the book does not stay open- have to use clothespins to keep it open on my music stand to actually use it to play some music.

Wayne Erbsen has a LOT of great books, add this one is a gem. Great reference for old time gospel

Simple, definitely a camp book, even found some old songs that had been lost.

This is a great little song book with some songs that you can't find other places.

Good selection of Gospel Songs and interesting notes about the history and the writers. The guitar chords are basic making it easy to accompany for the beginning player. Most songs are familiar to anyone acquainted with hymns.
