Karl Barth's Church Dogmatics: An Introduction And Reader

Synopsis

This reader from Karl Barth's multi-volume Church Dogmatics offers an introduction to the whole work, key readings in reasonable portions with introductions and provides helpful hints at secondary material. An ideal textbook for all beginners studying the work of one of the most important theologians of the last century.

Customer Reviews

'Embarking on the study of Barth's Church Dogmatics is no easy matter; this careful selection, with its perceptive introduction and commentaries, is an excellent guide to exploring one of the monumental texts of modern theology.' â " John Webster, University of Aberdeen, UK (John Webster)'This volume is a welcome resource for both teachers and students of Karl Barth's theology. Michael Allen's well-chosen excerpts from the Church Dogmatics are lengthy enough to provide a feel for Barth's sprawling theological discourse and wide-ranging enough to provide an appreciation of the full scope of his dogmatic thought. The introduction and notes locate Barth's work within the context of classical and modern divinity and direct readers to the best English-language literature on the Basel theologian. Those who have heretofore feared the prospect of exploring Karl Barth's massive Church Dogmatics may now take courage thanks to Allen's able guidance.' â " Scott R. Swain, Reformed Theological Seminary, USA. (Sanford Lakoff)'Embarking on the study of Barthâ ™s Church Dogmatics is no easy matter; this careful selection, with its perceptive introduction and commentaries, is an excellent guide to exploring one of the monumental texts of modern

theology.â™ â “ John Webster, University of Aberdeen, UK (Sanford Lakoff)’This volume is a welcome resource for both teachers and students of Karl Barth’s theology. Michael Allen’s well-chosen excerpts from the Church Dogmatics are lengthy enough to provide a feel for Barth’s sprawling theological discourse and wide-ranging enough to provide an appreciation of the full scope of his dogmatic thought. R. Michael Allen is Assistant Professor of Systematic Theology at Knox Theological Seminary at Fort Lauderdale, USA.

With the completion of this book by R. Michael Allen, I have just established first contact with one who has been viewed as the greatest theologian of recent times - Karl Barth. And what a timely occasion to do this, just two days prior to his 127th birthday! For one who has written almost 10,000 pages, 6 million words over a period of 35 years, it is no easy task to pull out excerpts without misrepresenting Barth, or worse still, running the risk of reductionism. But Allen has done an excellent job, and is to be commended for doing so. The chapters in the book covering the different topics follow the order of Church Dogmatics (CD) itself other than with one or two exceptions. Each excerpt is well-selected, of the right length (approx. 15-20 pages of CD), and is mostly kept intact as it appears at any particular point in CD. These features result in each excerpt presenting clearly with the original rhetorical force of Barth the theological point he seeks to make. Allen also helpfully states in the opening section of each chapter consisting of his own comments and in footnotes accompanying the excerpt other perspectives of Barth on that particular topic not found in the chosen excerpt, providing references and guiding points for those who may wish to pursue further or deeper Barth’s thoughts on the particular matter. One suggested area of improvement is if the font size of the main text of CD and the parenthesis text could be differentiated in each excerpt as in CD itself. But this book certainly serves as an excellent introduction and teaser to Barth’s magnum opus. Like a food tasting platter, this book whets one’s appetite for the main course to come - a main course that would definitely take longer to chew, and much longer to digest for our spiritual good.

A brilliant introduction to the dogmatics of Karl Barth, an intellectual, complex and occasionally baffling thinker from the late 20th Century whose position on several matters of theology and doctrine (to him, dogmatics and to the rest of us, apologetics) over the course of preparation of his uncompleted Magnus Opus. From this volume you will understand what Barth said; it is not likely that this volume alone will persuade you of the rightness or consistency of Barth's increasingly liberal and extrapolated thought on the basic content of Scripture.

Your theology will not be challenged more than Barth and his Dogmatics. Allen does a wonderful job of making Barth a little more user friendly, and this is the perfect "dig in" kind of book. Have a pen ready, and a Barth scholar ready to inquire from.

This Reader, and its accompanying chapter introductions do a great job of giving a brief yet surprisingly thorough introduction to Barth's writings. The foot notes are also helpful.

What a great read. Best introduction on Barth for modern readers. Worth every penny. For more reviews check out Amateurtheologians.com

A great body of work that takes focus, patience, and attention to fully grasp strengths and weaknesses.

This book is a must have if you are serious in knowing more about Karl Barth and his monumental Church Dogmatics!
